Khategaon , Madhya Pradesh	Mathsience
Arihant Convent Higher Secondary School	**2020 - 2021**
Khategaon , Madhya Pradesh	All Courses

Projects

Hotel Room Booking System
A Java–MySQL based desktop application developed for hotel management.

- Built modules for **reservation, cancellation, and availability tracking** with date-specific logic.
- Created distinct **roles for manager and guest** with secure authentication.
- Enabled manager to **update room attributes** (number, AC/Non-AC, tariff, occupancy).
- Guests can **browse vacant rooms, confirm stays, and manage bookings**.
- Database schema designed to **store guest profiles, room details, and transaction history**.

Tech Stack: Core Java, JDBC, MySQL

Responsive Website Template
A front-end web project focused on modern UI/UX design.

- Crafted a **mobile-first layout** using semantic HTML5 and CSS3.
- Applied **Bootstrap grid system** for structured sections and adaptive elements.
- Enhanced interactivity with **JavaScript-driven form checks and smooth animations**.
- Verified **browser compatibility** and improved load efficiency.

Tech Stack: HTML, CSS, JavaScript, Bootstrap

IMDB Clone
A React-based single-page web application replicating IMDB features.

- Integrated **third-party API** to fetch movie listings, ratings, and cast details.
- Planned **search, filter, and detail pages** with reusable components.
- Leveraged **React Hooks for state handling** and dynamic rendering.
- Implemented **responsive card layouts** for seamless viewing across devices.

Tech Stack: React.js, JavaScript, API, Tailwind CSS
