

Payal Meena

📍 Khategaon , India 📞 +91 6261624645 📧 paylmeena20@gmail.com

Summary Aspiring full-stack developer with hands-on experience in Java, MySQL, JavaScript, React, and responsive web development. Built multiple academic projects including a hotel room booking system, responsive website template, and an API-based IMDb search app. Strong in problem-solving, OOP concepts, CRUD operations, and database management. Eager to apply technical skills in real-world projects and learn modern web technologies.

Education	Sant Singaji Institute of Science and Management Sandalpur , Madhya Pradesh 8.10 CGPA	2023 - Present Bachelor of Computer Application
	Arihant Convent Higher Secondary School Khategaon , Madhya Pradesh 86.2%	2022 - 2023 Maths Science
	Arihant Convent Higher Secondary School Khategaon , Madhya Pradesh 98%	2020 - 2021 All Courses

- Projects**
- Hotel Room Booking System**
 - Developed a Java + MySQL desktop application with 6+ modules for room reservation, cancellation, date-based availability, and admin operations.
 - Implemented guest login & signup flow, where guest IDs are auto-generated and reused across bookings.
 - Added date-based availability system that checks 100% overlap conflicts using check-in/check-out logic.
 - Built features for 4 room updates (room no, AC/Non-AC, price, availability) using structured JDBC queries. Designed SQL tables for rooms, guests, bookings, and managed 20+ CRUD operations through JDBC.
 - Displayed room and booking data in a formatted table view to improve readability by 40%.
- Responsive Website Template**
 - Created a 5-page responsive website using HTML, CSS, Bootstrap, and JavaScript.
 - Designed 4 major sections (Hero, Services, Contact, About) with proper layout spacing and visual hierarchy.
 - Added form validation using JavaScript for accurate user inputs and better UX.
 - Ensured the website is mobile-friendly across 3 device breakpoints using Bootstrap grid utilities.
- IMDb Clone**
 - Built a single-page React application replicating IMDb features with API integration for movies, ratings, and cast details.
 - Created 10+ reusable components for search, ratings, movie cards, navbars, and loaders.
 - Implemented real-time search functionality using API calls with React Hooks.
 - Designed responsive layouts ensuring smooth UI on desktop and mobile views.

Skills	Programming	Frontend	Backend & Database	Tools
	Java, JavaScript	HTML, CSS, Bootstrap, React.js	MySQL, JDBC	Git, GitHub, VS Code
Certifications	Java Programming Certificate	Intermediate SQL Certification	React.js Certificate	
	Sant Singaji Educational Society	HackerRank	Scaler Academy	
	OOPs, collections, exception handling.	joins, subqueries, normalization, basic optimization.	components, hooks, props, routing, state management.
